

cA parent after a four day training in SRS: EVALUATION

- Listening to an expert in teaching reading, who is knowledgeable, passionate and experienced, was essential because I needed convincing that this would work After all nothing else has to date and my child is now in year 4 - so why this? I was convinced because there is a code and therefore a logic and a graded way of teaching it and I am willing to try and to use it.
- It was so helpful understanding why all the strategies/methods/programmes that fill my bookshelves at home haven't worked (eg Toe by Toe, Read Write Inc, Fuzz Buzz, Letterland, HFW flash cards, many many early readers from the Library), or at least are limited in their efficacy .
- Realising it's not my fault my child can't read and that maybe I'm not a bad mother because I have failed to help him; so a great sense of relief and hope!
